

# GS SERIES TRAILED BOOMSPPRAYS

AUSTRALIAN BUILT FOR TOUGH AUSTRALIAN CONDITIONS

The GS Series was born out of the need for a lighter trailed boomspray with all of Hayes Spraying's signature features, such as simple yet robust design, at a lower price point than the larger series. The GS series sprayers are suited to tractors from 100HP to 170HP.

These single axle rear mounted trailed boomsprays are suited to smooth field conditions. The single axle also provides more floatation when the country is wet. Available in 18m, 24m, 27m widths and tank sizes ranging from 3000L to 4000L.

Standard inclusions:

- 3 section plumbing
- One set of nozzles of choice
- TeeJet quick cap nozzle bodies
- 50cm nozzle spacing
- Independent trailing arm coil spring suspension
- Individual hydraulic boom tilt
- Individual hydraulic boom folds
- Sliding boom height adjustment
- Plumbing & filters
- Stainless steel 1.5" hydraulic driven pump
- Tank rinse nozzle
- 400L rinse tank
- Mudguards
- 20L clean water container
- Toolbox & Oversize sign

Some of the common upgrades for the GS series trailed boomspray include:

- Floatation tyres
- 50L fixed loading hopper
- Electric fence line nozzles
- Additional 2" fill point

### GS Series—Southern Special Sprayer

The southern special is an economical single axle rear mounted trailed boomspray made for the smoother, rolling country in the south, although it can be used anywhere under the right circumstances.

The southern special features include: 24m single axle 4000L, rigid axle (no coil suspension), no mudguards and a 1.5" cast hydraulic driven pump.
