# WEEDIT SPRAYER

AUSTRALIAN BUILT FOR TOUGH AUSTRALIAN CONDITIONS

Hayes Spraying offers a range of purpose built 3PL & trailed boomsprays that are specifically designed to accommodate the Weedit sensors.

The integrated hydraulic levelling system maintains optimal boom height which is essential to the successful operation of Weedit sensors.

Boom widths are available from 18m to 27m in the 3PL range and up to 48m for trailed booms.

Standard features include hydraulic floating hitch, hydraulic levelling system with jockey wheels, hydraulic folding booms, hydraulic height adjustment, individual hydraulic tilt and Weedit sensor mount brackets. Also available a 12m tool bar.

Photos & information in this brochure are a general guide only. Specifications are subject to change without notice.
