

# CHEMICAL HANDLING EQUIPMENT

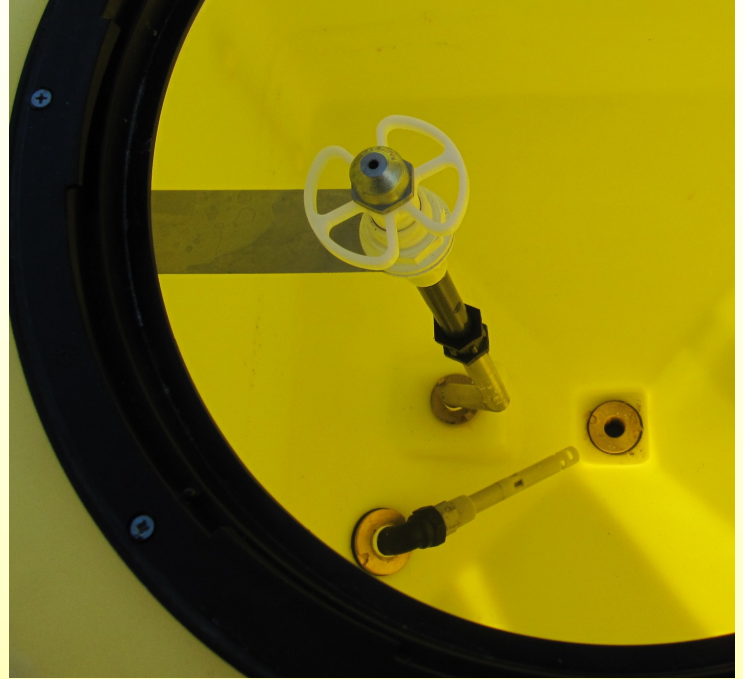

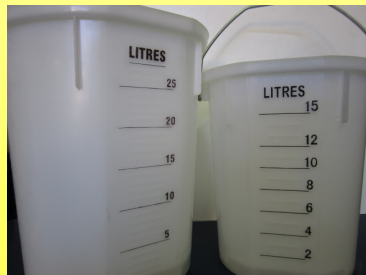

AUSTRALIAN BUILT FOR TOUGH AUSTRALIAN CONDITIONS

The bins have calibrated measurement markings on the front which are clearly visible against the yellow bin.

Our measuring containers range from 1L to 25L.

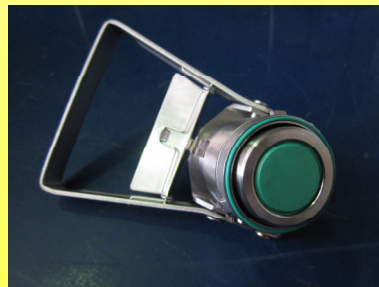

Accessories include hoses made to order, chemical spears & micromatic couplings.

The bins are fitted with a nozzle for rinsing 20L drums to reduce chemical waste. The valve will only open when pushed down by the inverted chemical drum.

The agitation nozzle is used to agitate chemical and rinse the bin.

Rinse bins are available in 3 sizes, 50L, 120L & 200L.
